

Wagdy Sawahel is an expert in science management and innovation as well as technology investment and science-based business with a B.Sc. with a general grade “Excellent with honors” from faculty of science, Tanta University / Egypt in 1987, and a Ph.D. in biotechnology from Leeds University / Britain in 1994. From 1996-1998, he worked as a research fellow at the United Nation International Center for Genetic Engineering & Biotechnology in New Delhi / India and from 2001-2002, he was a visiting scientist at Vienna university / Austria. Also, from 2005-2006, he was a visiting scientist at Ghent university, Belgium.

At present, he is associate professor at the National Research Center, Cairo / Egypt & vice-president of consultants group Innovation and Sustainable Development Perspective (ISDP), <http://www.isdp.asia/login.asp?lan=en>

He is the general coordinator for science development network www.sciencedev.net, the general editor for the international series of genetic engineering & biotechnology and an editorial board member of the international journal: cellular & molecular biology letters.

He is professionally experienced and academically qualified in most aspects of biotechnology research, education & training, awareness, bio-safety, socio-economic issues, bioethics, intellectual property rights, bio-policy.

Sawahel has been monitoring science development and knowledge-based economy in middle east and north Africa (MENA) region and prepared several reports about that for a number of international organizations such as London-based science and development network www.scidev.net as well as international science magazines such as US-based the Scientist <http://www.the-scientist.com>, South Africa-Based Africa research WWW.RESEARCH-AFRICA.NET, University World News <http://www.universityworldnews.com/> and Switzerland-based intellectual property watch www.ip-watch.org. Besides writing to a number of Arab journals, newspapers and magazines, Sawahel was the editor for science and technology section at Cairo-based islamonline website.

Sawahel has published 26 books and a number of research papers, reviews, reports and articles in various areas of genetic engineering and biotechnology, political science, science and technology policy, environmental studies and economics as well as Science diplomacy. In the field of science awareness, he has published several articles and books in Arab newspapers and magazines. He is the author of the first Arabic

encyclopedia in genetic engineering “15 books” and as a result he has obtained Dr. ahmed Zahran prize in scientific culture from the Egyptian Academy of Scientific Research & Technology in 1999.

Sawahel has been recognized for his scientific research at the national and international levels by obtaining the State prize for scientific encouragement in biology in 1994 and the Third World Academy of Science prize in Biology in 1998. He obtained the National Research Center prize for scientific encouragement in biology in 1998. In addition, he obtained the professional titles: “Chartered Biologist, CBiol” from the Institute of Biology / London in 1994 and “European Professional Biologist, EurProBiol” from European Communities Biologists Association / Brussel in 1996.

He is a reviewer for scientific projects at United Arab emirates-based Arab foundation for science and technology. He is also a member of many scientific societies such as New York Academy of Science / USA, Genetics & Bioethics Network / Japan and Working Group on Technology and Agrarian Development / Netherlands. In addition, he is a member of the general committee of merit & M.Sc scholarship programmes and external review, Islamic Development Bank, Organization for Islamic conference ; Member of the governing body for the Technical Advisory unit for genetic engineering, National Research Center, Cairo and a scientific expert for Arab League for education, culture, scientific organization, ALECSO.
