

INTERNATIONAL CONFERENCE

RECENT TECHNIQUES FOR ABATING SOIL AND WATER SALINITY

23-24 APRIL, 2008

INVITATION

On behalf of the Organizing Committee, it is our pleasure to invite for participation in an International Conference on Recent Techniques for abating soil and water salinity that is scheduled to be held on 23- 24 April, 2008 at Soil Salinity Research Institute, Pindi Bhattian Distt. Hafizabad, Pakistan. The programme includes plenary lectures by eminent scientists, Research papers oral / posters in following areas:

- Recent Reclamation techniques/approaches.
- Nutrient Management in salt affected soils.
- Agronomic/Engineering interventions for management of salt affected soils.
- Safe use of brackish water for crop production and rehabilitation of lands.
- Saline Agriculture and salt tolerance of plants.
- Deterioration of soil characteristics (Physical and chemical) and their remediation.
- Salinity stress on plants including physiological aspects and abating techniques.

Your participation will highly be obliged. Sharing of your experience with fellow scientists in order to solve the huge problem will be solicited.
