About Dubai Techno Park

Techno Park was established in 2002 as a science and technology park to further Dubai's economic development. The government of Dubai has allocated a 21 SQKM plot for the project located to the west of Jebel Ali Free Zone. The initial stage of the project was developed and administered by Techno Park Corporation (a unit of PCFC).

About the WTA

The World Technopolis Association (WTA) was established in June 1997 in Daejeon, Korea, as a multilateral cooperative international organization. The main goals of the WTA are to promote regional development and a shared prosperity through exchanges and cooperation among science cities; and to contribute further to the happiness and well-being of all peoples through the advancement of science and technology. The WTA holds its Techno-Mart every two years, rotating its venue among members
